## SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

## 2010 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

Subject	Kent County, Rhode Island			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
<b>HOUSEHOLDS BY TYPE</b>				
Total households	67,130	+/-1,663	67,130	(X)
Family households (families)	39,982	+/-2,194	59.6%	+/-2.9
With own children under 18 years	17,662	+/-1,169	26.3%	+/-1.8
Married-couple family	28,719	+/-2,447	42.8%	+/-3.3
With own children under 18 years	11,793	+/-1,344	17.6%	+/-2.0
Male householder, no wife present, family	3,576	+/-1,020	5.3%	+/-1.5
With own children under 18 years	1,734	+/-654	2.6%	+/-1.0
Female householder, no husband present, family	7,687	+/-1,250	11.5%	+/-1.9
With own children under 18 years	4,135	+/-986	6.2%	+/-1.5
Nonfamily households	27,148	+/-2,060	40.4%	+/-2.9
Householder living alone	22,945	+/-1,950	34.2%	+/-2.8
65 years and over	9,565	+/-1,128	14.2%	+/-1.7
Households with one or more people under 18 years	18,766	+/-1,255	28.0%	+/-1.9
Households with one or more people 65 years and over	18,095	+/-952	27.0%	+/-1.2
Average household size	2.45	+/-0.06	(X)	(X)
Average family size	3.18	+/-0.13	(X)	(X)
<b>RELATIONSHIP</b>				
Population in households	164,532	+/-864	164,532	(X)
Householder	67,130	+/-1,663	40.8%	+/-1.0
Spouse	28,865	+/-2,427	17.5%	+/-1.5
Child	48,506	+/-2,412	29.5%	+/-1.5
Other relatives	9,889	+/-2,023	6.0%	+/-1.2
Nonrelatives	10,142	+/-1,985	6.2%	+/-1.2
Unmarried partner	5,289	+/-1,189	3.2%	+/-0.7
<b>MARITAL STATUS</b>				
Males 15 years and over	65,671	+/-542	65,671	(X)
Never married	22,483	+/-1,757	34.2%	+/-2.6
Now married, except separated	30,430	+/-2,583	46.3%	+/-3.9
Separated	1,111	+/-581	1.7%	+/-0.9
Widowed	2,632	+/-779	4.0%	+/-1.2
Divorced	9,015	+/-1,554	13.7%	+/-2.4
Females 15 years and over	72,827	+/-591	72,827	(X)
Never married	19,990	+/-1,848	27.4%	+/-2.5

Subject	Kent County, Rhode Island			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Now married, except separated	30,830	+/-2,627	42.3%	+/-3.6
Separated	2,054	+/-811	2.8%	+/-1.1
Widowed	8,254	+/-956	11.3%	+/-1.3
Divorced	11,699	+/-2,062	16.1%	+/-2.8
<b>FERTILITY</b>				
Number of women 15 to 50 years old who had a birth in the past 12 months	2,005	+/-755	2,005	(X)
Unmarried women (widowed, divorced, and never married)	998	+/-546	49.8%	+/-18.3
Per 1,000 unmarried women	46	+/-26	(X)	(X)
Per 1,000 women 15 to 50 years old	51	+/-19	(X)	(X)

Per 1,000 women 20 to 34 years old	101	+/-46	(X)	(X)
Per 1,000 women 35 to 50 years old	18	+/-10	(X)	(X)
<b>GRANDPARENTS</b>				
Number of grandparents living with own grandchildren under 18 years	N	N	N	(X)
Responsible for grandchildren	N	N	N	N
Years responsible for grandchildren				
Less than 1 year	N	N	N	N
1 or 2 years	N	N	N	N
3 or 4 years	N	N	N	N
5 or more years	N	N	N	N
Number of grandparents responsible for own grandchildren under 18 years	N	N	N	(X)
Who are female	N	N	N	N
Who are married	N	N	N	N
<b>SCHOOL ENROLLMENT</b>				
Population 3 years and over enrolled in school	38,037	+/-1,794	38,037	(X)
Nursery school, preschool	2,580	+/-848	6.8%	+/-2.1
Kindergarten	1,219	+/-448	3.2%	+/-1.2
Elementary school (grades 1-8)	15,644	+/-1,072	41.1%	+/-2.9
High school (grades 9-12)	7,852	+/-817	20.6%	+/-2.4
College or graduate school	10,742	+/-1,490	28.2%	+/-2.9
<b>EDUCATIONAL ATTAINMENT</b>				
Population 25 years and over	119,827	+/-581	119,827	(X)
Less than 9th grade	4,361	+/-1,169	3.6%	+/-1.0
9th to 12th grade, no diploma	10,482	+/-1,621	8.7%	+/-1.3
High school graduate (includes equivalency)	36,731	+/-3,066	30.7%	+/-2.5
Some college, no degree	24,829	+/-2,574	20.7%	+/-2.1
Associate's degree	10,728	+/-1,634	9.0%	+/-1.4
Bachelor's degree	20,605	+/-2,167	17.2%	+/-1.8
Graduate or professional degree	12,091	+/-1,592	10.1%	+/-1.3
Percent high school graduate or higher	(X)	(X)	87.6%	+/-1.7
Percent bachelor's degree or higher	(X)	(X)	27.3%	+/-2.4
<b>VETERAN STATUS</b>				
Civilian population 18 years and over	131,821	+/-276	131,821	(X)
Civilian veterans	13,464	+/-1,609	10.2%	+/-1.2
<b>DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION</b>				
Total Civilian Noninstitutionalized Population	164,748	+/-678	164,748	(X)
With a disability	20,259	+/-2,219	12.3%	+/-1.3
Under 18 years	34,164	+/-244	34,164	(X)
With a disability	1,174	+/-467	3.4%	+/-1.4
18 to 64 years	105,137	+/-583	105,137	(X)
With a disability	10,638	+/-2,004	10.1%	+/-1.9
65 years and over	25,447	+/-739	25,447	(X)
With a disability	8,447	+/-1,160	33.2%	+/-4.5
<b>RESIDENCE 1 YEAR AGO</b>				
Population 1 year and over	164,336	+/-620	164,336	(X)
Same house	149,078	+/-2,773	90.7%	+/-1.6

Subject	Kent County, Rhode Island			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Different house in the U.S.	14,896	+/-2,700	9.1%	+/-1.6
Same county	9,062	+/-2,245	5.5%	+/-1.4
Different county	5,834	+/-1,790	3.6%	+/-1.1
Same state	3,292	+/-1,406	2.0%	+/-0.9
Different state	2,542	+/-1,138	1.5%	+/-0.7
Abroad	362	+/-360	0.2%	+/-0.2
PLACE OF BIRTH				
Total population	166,103	*****	166,103	(X)
Native	157,190	+/-1,319	94.6%	+/-0.8
Born in United States	156,382	+/-1,376	94.1%	+/-0.8
State of residence	120,546	+/-3,608	72.6%	+/-2.2
Different state	35,836	+/-3,690	21.6%	+/-2.2
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	808	+/-436	0.5%	+/-0.3
Foreign born	8,913	+/-1,319	5.4%	+/-0.8
U.S. CITIZENSHIP STATUS				
Foreign-born population	8,913	+/-1,319	8,913	(X)
Naturalized U.S. citizen	5,929	+/-1,161	66.5%	+/-13.2
Not a U.S. citizen	2,984	+/-1,401	33.5%	+/-13.2
YEAR OF ENTRY				
Population born outside the United States	9,721	+/-1,376	9,721	(X)
Native	808	+/-436	808	(X)
Entered 2000 or later	0	+/-291	0.0%	+/-21.2
Entered before 2000	808	+/-436	100.0%	+/-21.2
Foreign born	8,913	+/-1,319	8,913	(X)
Entered 2000 or later	1,867	+/-1,284	20.9%	+/-13.1
Entered before 2000	7,046	+/-1,224	79.1%	+/-13.1
WORLD REGION OF BIRTH OF FOREIGN BORN				
Foreign-born population, excluding population born at sea	N	N	N	(X)
Europe	N	N	N	N
Asia	N	N	N	N

Ukrainian	121	+/-149	0.1%	+/-0.1
Welsh	406	+/-243	0.2%	+/-0.1
West Indian (excluding Hispanic origin groups)	250	+/-421	0.2%	+/-0.3

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Starting in 2008, the Scotch-Irish category does not include Irish-Scotch. People who reported Irish-Scotch ancestry are classified under "Other groups," whereas in 2007 and earlier they were classified as Scotch-Irish.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010 American Community Survey

#### Explanation of Symbols:

1. An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Unrelated individuals 15 years and over	(X)	(X)	21.2%	+/-3.9

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the ACS User Notes for details.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

The Census Bureau introduced an improved sequence of labor force questions in the 2008 ACS questionnaire. Accordingly, we recommend using caution when making labor force data comparisons from 2008 or later with data from prior years. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the "Evaluation Report Covering Employment Status" at [http://www.census.gov/acs/www/Downloads/methodology/content\\_test/P6a\\_Employment\\_Status.pdf](http://www.census.gov/acs/www/Downloads/methodology/content_test/P6a_Employment_Status.pdf), and the "Evaluation Report Covering Weeks Worked" at [http://www.census.gov/acs/www/Downloads/methodology/content\\_test/P6b\\_Weeks\\_Worked\\_Final\\_Report.pdf](http://www.census.gov/acs/www/Downloads/methodology/content_test/P6b_Weeks_Worked_Final_Report.pdf). Additional information can also be found at <http://www.census.gov/hhes/www/laborfor/laborforce.html>.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

This table contains new estimates for health insurance coverage status by employment status in 2010.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010 American Community Survey

Explanation of Symbols:

1. An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

SELECTED HOUSING CHARACTERISTICS

2010 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

Subject	Kent County, Rhode Island			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household Income are valid values.

The 2009 and 2010 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

ACS DEMOGRAPHIC AND HOUSING ESTIMATES

2010 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

Subject	Kent County, Rhode Island			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
<b>SEX AND AGE</b>				
Total population	166,103	*****	166,103	(X)
Male	80,220	+/-577	48.3%	+/-0.3
Female	85,883	+/-577	51.7%	+/-0.3
Under 5 years	8,059	+/-682	4.9%	+/-0.4
5 to 9 years	9,828	+/-1,212	5.9%	+/-0.7
10 to 14 years	9,718	+/-1,205	5.9%	+/-0.7
15 to 19 years	10,036	+/-481	6.0%	+/-0.3
20 to 24 years	8,635	+/-381	5.2%	+/-0.2

Puerto Rican	540	+/-407	0.3%	+/-0.2
Cuban	0	+/-291	0.0%	+/-0.1
Other Hispanic or Latino	2,580	+/-1,162	1.6%	+/-0.7
Not Hispanic or Latino	160,651	*****	96.7%	*****
White alone	152,097	+/-213	91.6%	+/-0.1
Black or African American alone	2,330	+/-485	1.4%	+/-0.3
American Indian and Alaska Native alone	188	+/-138	0.1%	+/-0.1
Asian alone	3,685	+/-520	2.2%	+/-0.3
Native Hawaiian and Other Pacific Islander alone	0	+/-291	0.0%	+/-0.1
Some other race alone	341	+/-316	0.2%	+/-0.2
Two or more races	2,010	+/-728	1.2%	+/-0.4
Two races including Some other race	449	+/-368	0.3%	+/-0.2
Two races excluding Some other race, and Three or more races	1,561	+/-796	0.9%	+/-0.5
Total housing units	73,698	+/-355	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see [http://www.census.gov/acs/www/methodology/questionnaire\\_changes/](http://www.census.gov/acs/www/methodology/questionnaire_changes/). For more information about changes in the estimates see <http://www.census.gov/population/www/socdemo/hispanic/reports.html>.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
