Course Outline/Topics to be Covered

The didactic portion has 5 phases: 1) General Medical Studies (about 5 weeks) : training in Infection Control, Basic Human Anatomy & Physiology, Medical Terminology, CPR, 1st Aid, Legal issues, Communication, & Documentation. Remediation/ contextual learning is available for students who are struggling with low scores. 2) Core Curriculum (about 5-7 weeks), students learn about the phlebotomy profession, how to obtain blood & non-blood samples, and laboratory procedures as well as performing blood draws on manikins and human patients. 3) The Simulated Clinical session and externship prepares students for work in a laboratory environment as Students receive patients, review tests ordered, obtain samples, and perform laboratory procedures on the specimens. 4) The Job readiness session focuses on resume writing, interviewing techniques, basic computer job searches and professional etiquette. Upon completion of the didactic portion, students sit for the National Healthcareer Association Certification Examination.
