**Course Outline/Topics to be Covered**

This program includes three LEED classes and two BPI certifications. CleanEdison's LEED Glntensive courses is one of the fastest ways to prepare you for the Green Associate and LEED AP exams. CleanEdison's instructors will review the credit rating system, what the general guidelines are for that system, and various tips and tricks for passing the exam. If you want to jumpstart your career into the green industry then CleanEdison's LEED Intensive course is right for you. Our intensive BA/ES Boot Camp combines our BPI Building Analyst Training and Envelope Training into a concise week-long program. The Boot Camp includes instruction in the classroom and hands-on field training using diagnostic equipment. With the proper understanding and the proper equipment, a BPI Building Analyst is qualified to make recommendations to the homeowner on how to reduce energy consumption and improve home performance. The course fee includes both the written and field exam test fees for the Building Analyst as well as the Envelope Professional Certifications!
