**Course Outline/Topics to be Covered**

This 8 week program includes both classroom training and hands on clinical experience enabling students to take the state board exam for registration as a Certified Nursing Assistant. Classroom instruction is provided by an experienced Registered Nurse focusing on all aspects of learning the role to become a CNA in a variety of healthcare settings. Clinical experience involves students providing care for patients at Elmhurst Extended Care under the supervision of staff. All students are assigned a Vocational Service worker to assist in clearing obstacles for the successful completion of the course and to provide long-term follow up and support. Staff also provide students assistance with resume writing, job searching, filling out job applications, interview skills, job retention strategies, workplace communication and ethics, and customer service. A career day offers students a way to connect with potential employers.
