Course Outline/Topics to be Covered

This 260 hour course is designed to provide you with the information you need to maintain and service PC's and their peripheral devices, including installation, upgrading, troubleshooting, etc.
The course teaches the fundamentals of networking. Through hands-on training you will learn the vendor-independent networking skills and concepts required for networking professionals. This course will provide you with a strong foundation in PC-based features, benefits, cost concerns, performance issues, and troubleshooting.
