**Course Outline/Topics to be Covered**

The Computer Networking & Security program will provide students with a strong foundation on which to build a successful career in Information Technology. Students will first be exposed to the core principles and procedures of networking concepts, office applications, computer hardware and software, and desktop operating systems. They will also be exposed to the unique challenges of the IT business world and become skilled in customer service essentials. This program emphasizes hands-on learning experiences based on performance based objectives, and incorporates troubleshooting techniques in every course. Upon completion of the program, students will be encouraged and eligible to sit for a specific set of industry certifications such as; CompTIA A+, Network+, Server+, Security+, MCSA, and EC Certified Ethical Hacker. Upon completion of this program, students will be trained for entry-level positions in the IT field of their choice as Computer and Information Systems Technicians, Software Support Technicians, Network Systems and Data Communication Analysts, Security Support Technicians, Help Desk SupportTechnicians, and other employment in the Information Technology field. Please see attached flyer for additional information.
