Course Outline/Topics to be Covered

The Physical Therapist Assistant (PTA) associate degree program prepares students to help a variety of people in a variety of settings. PTAs assist people of all ages, with various movement disorders, to become independent in their day-to-day functions. Graduates can work in traditional medical environments or in settings where people need to learn new ways to prevent injury or to promote health, wellness, and fitness. In the field, the PTA is supervised by a licensed physical therapist (PT). Upon successful completion of all degree requirements, the student will be eligible to sit for the National Physical Therapy Examination for Physical Therapist Assistants.

Required academic grade levels to enter program
