Course Outline/Topics to be Covered

This program is designed to give students entering the field of electronics a sound, comprehensive foundation in the skills employers are seeking in an electronics technician. The program includes study in Simple passive circuits and Printed Circuit Board, telecommunications, digital electronics,
data and acquisition control, microprocessor control, programmable logic control (PLC) and robotic
control systems. Students also have two to three technical elective choices in areas such as Renewable
Energy Systems, Cisco Networks, CAD, and Biomedical Systems.

Required academic grade levels to enter program
