Administrative Questions:

Course Outline/Topics to be Covered

The WEB Technologies certificate is designed for individuals who wish to pursue a career in a Web related field and acquire the training and technical skill set that is necessary to prepare them for a career in a web related occupation. It is also ideal for those wishing to gain a broader knowledge of computer software and/or hardware. The certificate programs emphasize technical course work only and do not require students to take electives that are required in the associate degree options.

Required academic grade levels to enter program
