### Course Outline/Topics to be Covered

The Massage Therapy program is designed to prepare the student with a strong foundation on which to build a successful career as a competent entry-level massage therapist. A well-rounded curriculum offers the student knowledge of the structure and function of the human body blended with hands-on techniques used in therapeutic massage and a variety of specialized modalities. Because of the wide range of opportunities for the graduate, the program also focuses on the business aspects of a massage practice and the skills necessary for the student to begin a rewarding practice of their own. Graduates will be adequately prepared to begin their role as a successful independent practitioner in the healthcare community, sports clinic or day spa. Upon completion of the program, graduates are encouraged to sit for the National Certification Exam for Therapeutic Massage and Bodywork.
