Fax: 401-886-0861
Website: neit.edu

Course Outline/Topics to be Covered

This program is a comprehensive program designed to train the students as entry-to-industry level technicians. The program offers a curriculum combining two distinct but interrelated areas dealing with heat energy and its transfer. The course content includes the basic theory of heat flow and its control and the methods used to make heat flow to either cool or heat. The course includes basic domestic through complex commercial refrigeration and air conditioning systems, various heating systems, burners and their associate control circuitry.

Required academic grade levels to enter program

Reading Grade Level 9
Math Grade Level 6
English Proficiency none

Required to enter training program

Physical Yes No
