Course Outline/Topics to be Covered
(use separate document if more room is needed)
 The course provides the training required to certify an individual to Six Sigma Black Belt status. Six Sigma is a quality improvement process, driven and supported by top leaders in today's most successful organizations. This process improvement quality initiative uses a structured quantitative approach for driving improvement in an organization through the use of defined metrics in manufacturing, service, and financial processes within an organization. This focus on product, process, and transaction can be defined and understood at three distinct levels: metric, methodology, and philosophy. Please refer to our website at edc.bryant.edu for more information.
